

## 6a. Transfer of infants

**IMPORTANT: PLEASE NOTIFY THE NEOGASTRIC COORDINATING CENTRE OF ANY PLANNED OR COMPLETED INFANT TRANSFERS AS SOON AS POSSIBLE**

Contact the coordinating centre by email:  
[neogastric@npeu.ox.ac.uk](mailto:neogastric@npeu.ox.ac.uk) or telephone 01865 617927

*Note: Do not share participant identifiable data*

### Completing the Transfer to an approved or unapproved site

Infants should be transferred according to usual local processes regardless of their involvement in the neoGASTRIC study.

To check whether a hospital is a neoGASTRIC participating site, please see the neoGASTRIC website and select the 'sites' link - <https://www.npeu.ox.ac.uk/neogastric>

If the hospital the infant is being transferred to is not listed, they may not have the necessary study approvals in place.

**Please contact the neoGASTRIC coordinating centre immediately, who will try to gain the necessary local approvals.**

Please note that this process will not interfere with the planned timing of the infant's transfer, however trial activities cannot take place without the necessary approvals being in place.

See Guidance Sheet 6b for the Transfer of Infants Checklist.
